BOW ISLAND

From our own Correspondent

Miss Mayberry of the telephone office here, spent the week end and Monday 24th. May at Medicine Hat, visiting her parents.

Mr. Goodfellow C.P.R. Telegraph Inspector was a business visitor here on the 26th.

We are glad to report that the Gas came on again last Saturday evening about 6 o'clock which was the result of the intense interest and herculean efforts of our matchless Gas-Well workers.

"May they live for a thousand years and their shadows never grow less."

It is to be sincerely hoped, that from henceforth there will be no more Winter Freeze-outs through failure of the gas pressure owing to water or anything else stopping the full flow of the gas from the Well.

Those Doubtful Don'ts

My parents told me not to smoke; I don't.
Nor listen to a naughty joke; I don't.

They told me it was wrong to wink at handsome men; or even think about intoxicating drink; I don't.

To dance or flirt was very wrong; I don't.

Wild girls chase men with wine and song; I don't.

I kiss no man, not even one - In fact I don't know how it's done. You wouldn't think I have much fun; I don't.

When we heard Mr. Hurd sound the Gas Siren last Saturday to announce that the Gas was again flowing, it sounded as sweet a music as the Angel Gabriel's.

Mr. Willard has been called away to Fargo, North Dakota owing to the serious illness of his mother.

Mr. and Mrs. Hare and infant daughter returned from Medicine Hat last Saturday to their home at Maleb.

Mrs. (Scotty) Macdonald and children were visitors to town last Saturday.

Mr. Archie Hoaglin went to Lethbridge Monday.

Mr. and Mrs. A. Cobey of Lethbridge were in town Monday for the dance.

PUREST DISTILLED WATER

The Finest and Purest Distilled Water is always used for washing fine Lace work as well as for washing all Wollen Garments as they are all returned looking beautifully Soft and Sweet. Try us with one of your Dainty or Special Garments and you will be Delighted.

No Lurking Disease Germs Left, Medicine Hat Steam Laundry.

We are glad to report that Mrs. Hurlbut was quite a lot better on Thursday morning after being ill on Wednesday.

Miss Bessie Lawson was a visitor in town last week.

A crowd of young people went to Burdett Friday night for the dance all report a good time.

Mrs. Ostrum's many friends will be glad to hear she is getting along nicely and will be able to return home soon from Medicine Hat Hospital.

Mrs. Abe Smith is visiting friends in Lethbridge.

Miss Dorothy Dornan has been visiting her mother for a few days.

Mr. Lyons of Taber was a business visitor here Friday and Saturday.

Mrs. Carson and Miss Mildred Prouse of Lethbridge were visiting their mother Mrs. Prouse of Bow Island last week.

A Real Snap

We have a Real Snap in a second hand Ford

S.G. Jamieson & Son
Bow Island, Alta.

Mrs. Cullen and children returned last Monday from Macleod.

Mr. and Mrs. Jack Henderson returned to their home in Lethbridge Monday.

Mr. Dan Pederson and Mr. Nurdan made a business trip to Lethbridge Monday.

Mr. Fred Smith of Lethbridge is in town for a few days.

Mrs. Smith from Medicine Hat was visiting her parents at Winnifred for a few days last week.

Mrs. LaMarsh of Medicine Hat was here visiting her parents Mr. and Mrs. Pollitt last week.

Mr. Fuller returned from Medicine Hat last Sunday morning.

Mr. and Mrs. Tunstall were visitors to Medicine Hat last Monday.

Mr. C. Anderson motored to Medicine Hat last Friday.

Mr. Bendner was an official visitor to Medicine Hat last week end.

WHAT IT IS TO NEED

From the

Freemen's Eagle & S.A.

It was reported that one of the fastidious, newly married ladies of this Town, kneads bread with her gloves on.

This incident may seem somewhat peculiar, but there are others.

The Editor of this paper, needs bread with his shoes on, he needs bread with his shirt on, he needs bread with his pants on, and unless some of his delinquent subscribers soon pay up, he will need bread without a darn thing on, and North Dakota is no Garden of Eden in the winter time.

Additional Bow Island News

From our own Correspondent

Mr. Keston was in Bow Island last Wednesday.

Mr. Burrell, police magistrate was an official visitor here last week.

Constable Baile was here on business last week.

The case brought against Dr. Munroe by Mr. Hagen was dismissed.

Mr. and Mrs. J. Munro and children of Medicine Hat were the guests of Mrs. Proudfoot at her son's farm, south of Bow Island, since Saturday last, returning to the Hat on Monday evening's train.

The inhabitants of Bow Island were greatly pleased at the good flow of the oil day on Sunday and the early part of Monday morning when the gas was turned off again until the evening to enable the workers to continue in their good work but the result was cheering for we now have such a good supply of gas that all the people of the town fully appreciate it after having known the miss of the gas.

Mr. W. J. Proudfoot from the South of Bow Island made a trip to Burdett on Sunday last in his car.

CROP AND LIVE STOCK REPORT

The conditions at the beginning of May were seen to be rather unfavourable looking at the calendar but highly favourable with respect to the thing which has proven a great limiting factor in crop production the last two or three years. During the fall, winter and spring liberal moisture had come to every part of the Province and it was the case likewise in the south where waste moisture seeped from the prairie winds that the moisture that had come both in snow and rain was effective. Southern Alberta was well into seeding by the first of May; rather later than last year. Central Alberta had made general beginnings while the north country had started only in favoured localities.

Progress in Seeding Operations

Since that time operations have been very active throughout the province with some delay from rain. A rather sharp rain occurred May 11th, which was pretty general and necessarily set back seeding operations. Progress in the south has been such that over thirty per cent of the oats are sown and over sixty per cent of the wheat seeding is complete and will be completed in ten days in Southern Alberta except for feed. In Central Alberta the progress has not been as rapid as in the south. At most points along the north and south lines only twenty per cent of the seed has been completed. Some delay has been caused by rains and as there was little plowing last fall it is going to take longer to put the crop in this spring. A good many are stubbling in their grain. Wheat seeding will be completed in Central Alberta in four or five days.

The Peace River country has been seriously delayed on account of rains on the tenth and eleventh. The land has not dried much before this date and the wet weather has left a great deal of the Peace River country too wet to work on. The delay by reason of wet weather is more serious in the North than it is in any other part of the Province. General seeding conditions are not good in Northern Alberta. There may be considerable seeding of barley and flax but the oats seeding is still to do besides.

CRESTON HAPPENINGS

The orchards are in full bloom and everything bids fair for a bumper fruit crop, the last weeks rains insuring plenty of moisture.

Miss Nevalrud of Bow Island arrived early this time again to help Mrs. Bruce in her millinery store, her fastly growing trade necessitating another assistant.

Mr. Geo. Beggs, who has been on the Wisluc log drive, spent a few days in town renewing old acquaintances and recuperating after strenuous winter's work. George is the "same old boy."

Mr. George Bruce who is working for Mr. Staples at Kitchener spent Sunday with home folks.

Master Dean Pezars, while playing ball with the Boy Scouts, met with a painful accident, catching behind the hat, without a mark he stopped a foul ball with his nose. He is getting along nicely, but has promised the doctor in attendance that he won't try the same stunt again.

The Base Ball Team of Creston crossed the international line and crossed bats with the Port Hill, Idaho, Team. The boys lost the game but promise to play when they meet the same team in the near future on the home grounds.

A representative of a Lethbridge wholesale fruit firm was in the Val. by a few days, contacting the coming fruit crop.

While the mountains are still now capped and will be for sometime, the valley is full of flowers and the heavy foliage on the trees give the old earth a lively look. Who would not live in the "Glorious Kootenay Valley"?

The Weather For May

Friday 21st. Cloudy, with High West Winds.
Saturday 22nd. Fine, with Bright Sunshine.
Sunday 23rd. Cool and Cloudy.
Monday 24th. Windy in forenoon with Sunshine in afternoon.
Tuesday 25th. Cloudy in forenoon. Heavier Rain test of the day.
Wednesday 26th. Bright Sunshine, and Calm.
Thursday 27th. Dull and cloudy in the morning with west winds in the afternoon.

Additional Burdett News

From our own Correspondent

Claude Brown returned last Monday from Grand Prairie up north he says the winter up there has been something here, several times it went down to 75 Degrees below Zero for a month at a time, he took the first chance that came along to return to God's Country down here.

The wind that visited the district last week for a day or two made the farmers despondent but after looking things over they came to the conclusion that not much damage was done, when the welcome rain of last Tuesday arrived they were all in good spirits again and the general opinion is now that nothing can stop a crop, it was interesting to notice the different farmers who have changed their opinions these last few days.

Miss Anderson was missed from town this holiday season as she was on a short visit to her mother in Calgary.

Ambrose Kimmitt was a visitor to town on his return to Foremost from Lethbridge. He reports things in good shape from his district.

A. Abbott is busy these days getting his house in order as he expects his family to be largely increased in the near future as Mrs. Abbott and their grown up children are expected almost any time from the old country.

We are glad to notice that Mrs. M. Ryge is able to be about again, without crutches, she has had a long spell of sickness and it is hoped she is now on the road to complete recovery.

Mr. Fote who is lying ill at his home south of Burdett is slowly improving but is a long way from recovery.

Miss Jean Munroe of Medicine Hat was visiting Miss Poole at Burdett on 24th, May.

Don't forget the big time promised at Burdett on Friday evening May 28th, when the G.W.V.A. are putting on a dance, with the Warrey or Crow Line Orchestra as it is called providing the music and the ladies putting on the supper a great evening is assured. Don't forget the time, dancing will start at 8:30 p.m.

We notice Alex Hamilton has been appointed the local adjuster for All Insurance losses, the Lender Guaranty and Accident Co., Farmers would be well advised to insure with a concern of the standing of this Company and with a local man as adjuster they can rely on a quick and satisfactory settlement. No doubt the representative of this Company will advertise shortly.

The ways of man are curious. The Browns boys bought a span a short time since and took them to seven Persons, turned them out to even with their only saddle horse, and of course all three were missing, however there some of locality was good and in a short time all three were located at their old home north of Burdett.

The Percheron Stallion SHEEFBAH 2nd. No. 9527-132703; Weight over 2100 lbs. Age, coming 4 years. Will stand at the following places for service, the season of 1920.

Save the surface and you save all day.

and this is the greatest surface saver of them all.

Loss from paint-neglect is vastly greater than the cost of paint-protection. But it is to be noted also that the real cost of using ordinary paint—however cheap it may be—is vastly greater than that of painting with a pure and durable paint such as B-H.

B-H PAINT
70% Pure White Lead
30% Pure White Zinc
100% Pure Paint

If you would avoid constant repainting—if you would have the paint that has maximum covering capacity, investigate the cause of the high reputation attained by B-H. You'll find that the favor in which it is held by so many experienced painters is due to a truly remarkable degree of purity—a purity attained by using such ingredients as the famous Brandram's Genuine B.H. White Lead—combined with pure flint and the purest linseed oil—now how to make in our own specially equipped mills. Your investigation will result in a trial of this brand—and that trial will make you a confirmed adherent of this paint that goes so far and that lasts so long. Its fine, smooth surface never cracks or peels—the tough, air-tight coat it gives affords the surest kind of surface-protection against time and weather.

Rain Saves Crops

The farmers will be smiling again now that the RAIN (yes we feel that the word "RAIN" cannot be printed too large, for it has a fine sound and looks well in print,) has come to start the crops growing, (those nasty drying winds did much to dampen the spirits of the farmers when they saw the land drying up and lots of the soil being blown away, and in some cases even the seed was blown along too, everyone will be hopeful again that crops will come in abundance to Bow Island and all the surrounding Districts.

Mysterious Blaze Reported At Sea

Captain Smith Saw a Flash of Fire Ten Miles Distant

New York—Another mystery of the sea was reported upon the arrival of the steamer *Merran*, from Rotterdam, with a tale of a strange explosion. Captain James Smith said that when approximately 600 miles from New York he saw a flash of fire to the north of his ship at 4:50 p.m. He judged it was about ten miles distant from his position.

Three hours later, Captain Smith reported, reddish material was thrown high into the air and he plainly heard a terrific explosion. He found no trace of wreckage, however, although the weather was clear and there was a smooth sea.

An Easy Pill to Take—Some persons have repugnance to pills because of their nauseating taste. Parke's Vegetable Pills are so prepared as to make them agreeable to the most fastidious. The medicine can be taken without feeling the revulsion that follows the taking of ordinary pills. This is one reason for the popularity of these celebrated pills, but the main reason is their high quality as a medicine for the stomach.

To Exclude Germans Scores of Germans who took refuge in Switzerland during the war, and have since expressed a determination to secure naturalization in that country, find the government has determined to exclude all Germans and other foreigners who have been living in Switzerland during the war. The qualifying period for naturalization will be raised from two years to twelve, including six years actual residence.

Aero Club of Manitoba Winnipeg—The Aero Club of Manitoba is to be the official title of the organization of former air service men formed in this city recently. The objects of the club are to promote good fellowship among those interested in flying, to promote flying and to safeguard fliers, to assist in recruiting in an emergency, to render charitable and financial aid to flying men in case of need, and to stimulate interest in flying; also to raise patriotic funds if the necessity arises.

New Air Stunt Succeeds New York—A feat never before attempted was successfully performed here by three aviators, who flew consecutively under the five East River bridges. Lieut. A. S. Reber, headed the trio with Lieut. C. H. Burgess, who was recently married in an airplane, on his left, and Lieut. N. L. Elliott on his right. They flew in the form of a triangle.

Liquor Congesting London Docks

Big Revenue in Sight If Government Came to Make Use of It

London—One of the chief causes of the unprecedented state of congestion on the London docks is said to be an enormous influx of wines and rum for which the London docks have tremendous orders immediately after the armistice was concluded. It is reported that the port of London authorities are taking steps to slow down these shipments until conditions become more normal.

A suggestion that the government could look to the liquor trade to relieve its financial problems was made in a speech at Carlisle by Baron d'Abernon, chairman of the central (liquor) control board. Baron d'Abernon said that despite the increased taxation, the profits from alcohol would easily be brought up to £200,000,000 yearly.

Oil for Toothache—There is no pain so acute and distressing as toothache. When you have no unguent, it is better to use Dr. Williams' Electric Oil according to directions and you will find immediate relief. It touches the nerve with soothing effect and the pain departs at once. That it will cure toothache is another fine quality of this oil, allowing the many uses it has.

Confiscated Jewels Recovered Vienna—Baron Adolph Ulmer, director-general of the Hungarian general credit bank is quoted by the Vienna papers as saying that the private accounts, and likewise the jewels confiscated by the Bela Kun government, have been found intact in the various banks. The jewels were systematically tagged with their owner's names.

Pinder of Gold at Vinny Ridge Sought London—Canadian headquarters have received an inquiry concerning a sum of gold said to have been buried on a Lafolie farm, near Vinny Ridge, by a farmer, and subsequently discovered by Canadian soldiers, who gave it to their superiors. Anybody possessing any knowledge of this matter should communicate with headquarters.

Hurrah! How's This Cincinnati authority says comes dry up and out with fingers.

Hospital records show that every time you take a corn you invite lockjaw or blood poisoning, which is needless, says a Cincinnati authority who says that a quarter of a grain of drug called freezeon can be obtained at little cost from the drug store, and is sufficient to rid one's feet of every hard or soft corn or callus.

This drug is sticky, but dries at once and is without pain. Applied once and it is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know this.

Altered Cases "Where's your watch?" asked the observer.

"Why, here it is," replied the man whose property had slipped back a cog recently.

"But that's a silver one. The one you used to have had a handsome gold case."

"Well—er—circumstances alter cases."

Minard's Liniment for sale everywhere.

Relieve Congestion Of London Traffic

Plan to Make 5,000 Trucks Do Work of 85,000 Vehicles

London—A. G. Gattie, in a conference with the board of trade committee with reference to his scheme for the reform of freight traffic in London, said that his proposal to use 5,000 motor trucks for the transport of commodities through London in connection with a centralized freight station, would take 95,000 vehicles off the traffic-jammed streets. Criticizing the present methods of handling cargoes on the London docks, he said it reminded him of "hauling a cart with a trap." He advocated the employment of deep water wharves, abandoning docks.

Minard's Liniment Co. Limited. Dear Sirs,—I had a bleeding toe on my right foot for a long time and tried a number of remedies without any good result. I was advised to try MINARD'S LINIMENT and after using several bottles it made a complete cure, and it healed all and disappeared altogether.

DAVID HENDERSON, Bellfield Station, Kings Co., N.B., Sept. 17, 1904.

White lies are apt to leave black marks on a man's reputation.

Minard's Liniment Relieves Neuralgia.

Would Abolish Conscription Washington—Withdrawal of the United States from the League of Nations, two years after the signing of the peace treaty, unless all nations abolish conscription within that time, was provided for in a bill introduced by Senator Jones, Washington, a Republican.

No matter how deep-rooted the corn or wart may be, it must yield to Holloway's Corn Cure if used as directed.

Province Of Saskatchewan

Twice the Size of the United Kingdom and Is Considerably Larger Than Germany

The province of Saskatchewan occupies 251,700 square miles, or equal to the combined area of France, Belgium and Holland. It is twice the size of the United Kingdom, and is considerably larger than Germany. It stretches for 760 miles from north to south, and has an arable land area of 52,881,000 acres. Only 2 per cent of its arable land is under cultivation, and in 1916 its population was 67,335.

The value of the grain crop in 1918 was \$320,245,000. This year there are over ten million acres of land in wheat in this province. The average wheat yield in Saskatchewan for the past six years was eighteen bushels per acre per year, while the average wheat yield in the same period in the United States was sixteen bushels per acre per year.

The city of Regina is the capital of the province. It is one of the largest and important cities in the west. The city has a population of about forty thousand.

The province owns its own telephone system, both local and long distance. It has a splendid university and Agricultural College situated at Saskatoon.

There are two thousand elevators situated throughout the province, with a total capacity of sixty million bushels. Government elevators are operated by Government commissioners, and have been very successful.

A great many Americans have settled in this province, the city of Moose Jaw being the principal business centre for the vast passenger business that comes into Canada by way of Minneapolis and St. Paul.

Saskatchewan is destined to be predominantly the wheat growing province of the Confederation, and already its total annual wheat yield compares most favorably with any province in Canada.

Canada's Fish Catch Shows Gain. Ottawa—The total value of sea fish landed in Canada, at the point of landing, during the month of July, was \$4,399,818, as compared with \$4,306,124 for the same month of last year. This is an increase of \$93,694.

Board of Commerce To Control Sugar

Board of Commerce Prohibits Certain Parties Exporting Sugar and Unfairly Enhancing Prices

Ottawa—The Board of Commerce has taken action to control sugar prices by restraining and prohibiting certain parties from disposing of sugar in such a way as to calculate to unfairly enhance its cost. They are particularly restrained from exporting sugar out of Canada. It was stated at the office of the board that this action was taken in view of excessive and unfair prices charged for sugar, and also because large quantities are being or are threatened to be exported from Canada, notwithstanding the urgent need for it in the Dominion. The board will hold an investigation in Montreal to consider generally the supply and prices of sugar and the effect on the community of the threatened export of this commodity.

Assimilation Of Foreigners

Dr. Weir Pleaded With Progress Made in Saskatchewan Settlements

Saskatoon, Sask.—Dr. G. M. Weir, principal of the Saskatoon Normal School, has returned from a tour of the districts in foreign settlements with Dr. J. T. M. Anderson, director of education among foreign populations. "Conditions are most hopeful," said Dr. Weir. "I was surprised at the progress made in many of the backward districts. I believe the Saskatchewan Department of Education, with Dr. J. T. M. Anderson, director of education among foreign populations, as it makes living conditions more attractive. It will, of course, take a generation to completely solve the problem, as everything depends on assimilation, but I am sure that we are now going in the right direction."

Big Enough Then "What small feet your wife has!"

"Yes, but they're plenty big enough when she starts to walk all over me."

May Bar Food Export

Anxiety in London That U.S. and Canada May Follow Example of Spain

London—Some anxiety is felt here that the United States and Canada will follow the example of Spain and prohibit the export of foodstuffs, especially wheat flour, in order to prevent the abnormal prices at present affecting the American continent. Opinion is that such an embargo will drive down prices, and its feasibility is enhanced by the tendency of the European market to rise. While Europe's food outlook for 1920 is not promising, right month's supply appears assured, and there is little inclination to buy a large future supply at abnormal prices. Municipal markets are now being opened and are reducing the price of green stuffs 30 to 50 per cent, the result having a decided moral effect.

Be happy and perhaps you'll be good.

CHOLERA INFANTUM

Cholera infantum is one of the early ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and unless prompt action is taken little one may soon be beyond aid. The Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. They are an absolutely safe medicine, being guaranteed by a government authority to contain no opiates or narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Reparation Commissioner

New Reparation Commissioner London—Sir John Bradbury, joint secretary to the Treasury, has been appointed principal British representative on the reparation commission in Paris, and is succeeded by Sir W. Flinter. Three departments have been set up in the Treasury to deal with supply services, establishments, and general financial administration.

Chicora SOAP
OINTMENT & TALCUM
The pore-cleansing, purifying and exfoliating properties of this soap, which is made up of purest of hot water and is best applied with the hands, will prove helpful to those who use it for the first time. Touch eruptions, roughness or irritation, if any, with Chicora Ointment before bathing. Dry and clean lightly with Chicora Talcum, a fascinating fragrance for powdering and perfuming the skin. Nothing better than these Chicora soap and talc, and their cost is but little.

Cultures Soap, Chicora Ointment and Talcum are also Canadian goods. Sold everywhere. For sample each free of charge. Write for it.

Salaried Men Organize

Japan Has a League for Improvement of Wages

New York, N.Y.—That discontent among middle class or salaried workers, resulting in organization for the expression of their demands, has spread as far as Japan, is declared by Charles Hodges, lecturer on far eastern trade at New York University. Mr. Hodges says Japan has a league for the improvement of the wages of the salaried men whose demands are that profits of limited companies be distributed first among employees and afterward among shareholders; that there should be a reserve fund for the benefit of retiring employees; that to be controlled by the employees' union; that period of service should be limited and a minimum living wage established.

The league, says Mr. Hodges, is advocating an associated movement of persons in the middle class. Labor propaganda is being pushed by the Nippon Rodo Rengo Kai, or the Japanese associated labor society.

The poor man who is going downhill needs a substantial check.

YOU CANNOT MOTOR IN COMFORT WITHOUT THEM

(PATENT APPLIED FOR)

ROYAL SIMPLEX WINDSHIELD WINGS

MOVABLE IN ALL DIRECTIONS THEY KEEP OUT DUST, WIND, RAIN, SLEET AND SNOW

Will also adjust to throw the air directly upon the occupants of the front seats and tonneau at will. The Royal Simplex Wings are handsomely designed, and add a note of distinction to the finest automobiles—and add class to the cheaper grade of cars. Can be clamped on any make of car in five minutes. The sale of the Royal Simplex Wings has been enormous since they were first put on the market in the United States.

Ladies need no protection to their faces when riding in the front seat when the Car is FITTED WITH THESE WINGS

Royal Simplex Windshield Wings eliminate the draught for those in the front seat. In rainy weather it is not necessary to use side curtains for the front seat, thereby allowing the driver the same view of the road as in clear weather.

Income Taxes Levied on Luxuries By New Budget

Ottawa.—A crowded house and crowded galleries welcomed Sir Henry Drayton, minister of finance, as he rose to make his first budget speech. Sir Henry dealt first with the economic situation of the Dominion. He emphasized prosperity in trade, the growth of revenue—last year's revenue of \$388,000,000 was the best ever collected. He spoke of Canada's strong position in regard to currency.

Prior to stating his taxation proposals, Sir Henry gave an extensive review of the financial and economic position of the Dominion.

Conditions obtaining not only in Canada but all over the world, he said, were very different from the conditions which prevailed while the war was in progress, then the compelling necessity of the moment required the raising of large sums of money. It was absolutely imperative that there should be no check on production, no hindering of the war effort. Today, conditions were changed. The war was won. Expense was great. Canada, with other countries which participated in the terrific struggle, was faced with a pyramid of debt.

"The duty today," Sir Henry declared, "not only to carry on the government of the country with any additions to the debt, but on the other hand to promote measures which will reduce the national indebtedness."

The task, while heavy, was not so severe as the obstacles which Canada had overcome in the five years of war and stress.

"Indeed," Sir Henry proceeded, "were it possible for the country again to become as united and content as it was during the war period, it would be possible for each and all of us to sink all differences, class and sectional interests and jealousies, into an effort towards re-establishing Canada as united and co-ordinated as that which won the war, the task would indeed be easy and simple."

The following is a summary of the taxation proposals:

Luxury taxes.—Ten per cent of the total purchase price on boots and shoes costing over \$30 a pair, men's and boys' suits costing over \$45; men's and women's dresses costing over \$50 each; fur coats and robes over \$100 each; women's dresses over \$45; women's suits over \$60, and on hats, shoes, neckties, gloves and gloves costing above certain specified figures, as well as on some other wearing apparel; all fans, open clothes, ivory-handled cutlery, glass ware, velvet and silk fabrics, lace, ribbons, silk embroideries and sporting goods.

Also on trunks over \$40 each, and valises, suit cases, etc., over \$25 each. This tax to be paid by the purchaser to the vendor at time of sale.

Ten per cent on pleasure boats, yachts, canoes and motor boats; cameras, cameras and confectionery, chewing gum, fire arms, shells, or cartridges; pianos, organs, musical instruments, and plated ware adapted for household use. This tax payable at the time of sale by Canadian manufacturers or when imported.

Twenty per cent total purchase price on such articles as cigars and cigarette holders and pipes costing over \$2.50; smokers and other equipment for smokers; hunting, shooting and riding garments, fancy pocket-knives, gold, silver, ebony and ivory toilet ware; jewelry, articles of silver adapted for household or office use; wearing apparel (except as mentioned above), liveries, oriental rugs, expensive carpets, curtains and chandeliers. This tax payable by the purchaser at the time of purchase.

Twenty per cent on mechanical player pianos, graphophones, and mechanical musical instruments, and on records used therewith.

Fifty per cent on articles of gold for household use.

Plating on goods, 25 cents a pack on each article at wholesale rate over \$25 per gross packs, and 50 cents a pack on each pack over \$25 per gross packs.

Beer, wines and spirits; increase in excise duties on beer of 30 cents a gallon; non-sparking wines, 30 cents a gallon, and on sparkling wines, 50 cents a gallon.

Motor cars: Excise tax on Canadian manufactured and imported cars increased from ten to fifteen per cent.

Sales tax: One per cent on the sales of all manufacturers, wholesale dealers, jobbers or importers (not retailers). This tax not to apply to a large list of essential foodstuffs, cattle foods, anthracite or bituminous coal for home use.

Stamp duties: Existing tax on cheques continued, but rate increased on money orders and promissory notes. Two cents for bills of \$10 or less, and two cents for each additional \$100 or fractional part thereof.

Stamp duties on patent medicines, etc.: Hereafter to be assessed by manufacturer or importer, instead of by the dealer.

Film tax of 15 cents for each day used abolished because of inequality of incidence as between small and large theatres.

Income tax: By last year's legislation income taxes payable this year in 1919 were very substantially raised. A further general addition to these taxes of five per cent is now added on incomes of \$5,000 and up, to be effective this year.

British Naval Estimates

Great Britain Will Not Reduce Beyond Margin Fixed For Naval Safety

London.—Navy estimates for the new financial year under discussion in the house of commons encountered a running criticism from a comparatively small number of members anxious to secure reduction of the various votes. Right Hon. Walter Long, first lord of the Admiralty, in reply, declared that no other department should be made the reduction as the admiralty, but the government was determined to do nothing to risk the navy being brought down below the margin that the admiralty was considering removing obstacles in the way of promotion from the lower deck to commission rank to which Geo. Baines, former labor member in the cabinet, retorted:

"A lower deck boy has as much chance of getting commissioned rank as a member of parliament."

Almost simultaneously Lord Jellicoe, at the Guildhall, was referring to his four of the Dominion. He said: "It is an empire of which not only the inhabitants of these islands are proud, but the representatives of millions also. Our sea communications depend on the British navy and the navies of the dominions, which may be brought into existence to help the British navy. It is our duty to see that we are supreme in every weapon going to safeguard our communications."

West Should be Represented

Want Western Interests on Directorate of the C. N. R.

Calgary.—Resolutions urging that there should be representation of the western interests on the board of directors of the Canadian National Railway and that freight rates westward should be based on the same mileage rates as those eastward, and advantage taken of reduced rates of operating government lines through easy grades to the coast, were passed by the conference of representatives of western boards of trade.

A resolution urging the establishment of western executive offices for the railway was withdrawn. W. E. Miller, of Winnipeg, spoke for the desirability of representations on the board of directors, arguing that much of the construction would be done in the west in the next ten years and that large parts and large revenues from the Western National railway came from the west.

F. J. Shaller, of Victoria, believed that the west would be the active future would be the devising of a cheap means of placing the wheat grown on the prairies on the markets of the world.

R. Moore, of Swift Current, questioned the wisdom of the first resolution, saying it would tend to create a cleavage between east and west.

Germany's Predicament

May be Compelled to Dispose of the State Owned Utilities to Secure Foreign Credits

Berlin.—If the state-owned public services continue to be run at a loss the government will finally be compelled to transfer them to foreign capitalists who have made up to the foreign foreign credit, Finance Minister Herr Wirth is reported to have said at an election campaign meeting at Düsseldorf.

The minister foretold the formation of a great national trust corporation in which great industrial organizations would be combined with the one end in view—more foreign credits.

Minister of defence Gessler declared at a public meeting in Cologne, of the 14,000 officers left in the German army at the end of the war, 10,000 had been demobilized.

U. S. Naval Power

Washington.—Appointment of rear-admiral Sims, as honorary member of the British admiralty, was declined by the navy department as "un-American," despite the fact that it was presented by Lord George. Secretary Daniels testified before a senate commission investigating the naval war. Mr. Daniels charged that the British had probably furnished some of the armaments used by the Germans against the British.

Require Additional Half Million
Toronto.—Officials of the University of Toronto say the university will require \$500,000 in addition to \$400,000 which has already been allocated to that institution, a total of \$900,000 this year being needed.

W. N. U. 1317

New Japanese Agreement

Anglo-Japanese Pact Avoids the Possibility of American Complications

Montreal.—The Montreal Star publishes the following London cable: The new Anglo-Japanese agreement will prevent any possibility of Great Britain being drawn into war with the United States as the result of trouble between Japan and America, according to statements from an authoritative source. The Japanese and British foreign offices are now preparing amendments for inclusion in the new treaty which is being drawn.

The amendment over which Great Britain is mostly concerned is one covering article 4. This article provides that England and Japan decline to go to war in defence of each other against nations with which they have no common interests. The British foreign office proposes to make it clear that this covers the Anglo-American treaty signed in 1914, which became a casus belli in the eyes of the original treaty with Japan. England has always insisted that this article covered the United States, but the British foreign office in article 4 will make this more explicit.

Turks Massing Against Greeks

40,000 Men To Resist Entry Into Thrace

Constantinople.—Greek and Turkish troops have clashed about 25 miles east of Smyrna, where the Turks are making the offensive and are sending massing reinforcements preparatory to further advances against the Greeks. Fighting has occurred between Kozan and Menemen.

Jafar Zayt, Turkish commander at Adirpash, has sent a message here from that city saying 40,000 of the Turkish Bulgarians are preparing to resist the Greeks. He declares they will meet the Greeks midway between Chatali and Adirpash, where the Greeks begin the occupation of Thrace.

Poles Receive No Help

War Materials Sent Were Bought in October Says Bonar Law

London.—A question concerning war materials which are being shipped from England to Poland, was recently raised in the house. Arthur Bonar Law, the government spokesman, said they form a part of the supplies sent by Poland last year, and that they were being shipped to the Poles because they are the property of the Polish government. Mr. Bonar Law added that Great Britain had sold Poland some surplus stores last October and that would have been a breach of faith on the part of the Poles if the dispatch of munitions had been prevented. He declared that no assistance, bold or otherwise, was being given Poland.

Port Arthur Varies Closed

Port Arthur.—All units at the Port Arthur shipyards are now closed and there is not a wheel turning in the yards. The office staff will be kept on for some time and guards and fire protection will be increased.

The strike is over a request for a 12 percent increase in wages. There has been no move toward a compromise.

Poles Are Driven Back

Warsaw.—The Bolsheviks have launched an attack on the northern front, between the river Dvina and Borisov, and the Poles have been compelled to surrender ground in the face of superior forces, say the official communications issued.

General Gulgowski adds that the fighting continues, but does not give the distance the Poles have withdrawn.

Postmaster Salaries to be Discussed

Ottawa.—Postmasters from all parts of the Dominion were represented at a meeting of members of the common. Western members have agreed to accompany a delegation of the rural postmasters to the civil service commission at the question of a fixed salary for postmasters will be taken up.

French Officers Acquitted

Paris.—Brig-General Fournier, the commander of the French fortress at Mauthagen at the beginning of the war and six of his subordinates, court-martialed for surrendering to the Germans in September, 1914, were all acquitted.

Canada to Send Representative

Ottawa.—In reply to E. R. D. Tremblay, "Laurel-Outrigger," in the house, Sir Robert Borden announced Canada would send a representative present at the final conference to decide the disposal of war indemnities to be paid by Germany.

Big Reduction In Clothing Prices In United States

Crop Prospects Are Bright

Report is Far More cheerful Than Expected From Late Seeding

Winnipeg.—The Manitoba Free Press' first crop report for 1912 is a decidedly more cheerful document than might have been expected from the very late seeding. The report is very best feature is in the fact that farmers are wise and are not attempting to go on seeding wheat after the first of May.

Very late seeding. The report is very best feature is in the fact that farmers are wise and are not attempting to go on seeding wheat after the first of May. The supply of moisture is excellent, the soil in fine condition and growth very good, not a few districts are reported with two to four inches of snow and at setbacks since seeding a start.

Of course, there is a decrease in acreage in wheat, but as that was to be expected, it is no surprise. As nearly as can be estimated from the report, 194 points have been heard from, the decrease is fifteen per cent in Saskatchewan and ten per cent in Manitoba and Alberta, or, in other words, 1920 the acreage in wheat is something over 15,700,000 acres, against 17,600,000 acres in 1919, and gives a continuation of the general favorable conditions it will be quite possible for the west to reap more wheat from the reduced acreage than it did from the larger acreage of 1919.

The only disappointment in the report is the apparent small increase in coarse grains, the reports indicating that there may be a small increase at many points there will be no increase at all. The increases will be mainly barley and flax.

Farmers are preparing to do extensive summerfallowing, which is a good thing and much needed after the war period.

Supplies of feed and labor are decidedly better than was anticipated, and horses are not in a poor condition for spring work, as might have been expected.

In the districts where there was winter trouble last year, there were reports to that condition, and reports are uniformly to the effect that so far no trouble is indicated, and farmers are better for fighting it should occur later.

Big Increase in Trade

First Month of Fiscal Year Shows Increase of Nearly \$3,000,000

Ottawa.—An increase of \$2,663,172 in the grand total of Canadian trade for the first month of April, the first month of the fiscal year, as compared with April, 1919, is shown by the report of the annual from the customs department. The trade of Canada during the past month reached a total value of \$154,161,134, as compared with \$151,577,967 for the same month a year ago.

Assurance of Denikin's Safety

London.—It was officially announced that satisfactory assurance had been received from M. Tchichrine, commissary for foreign affairs of Soviet Russia, regarding the safety of the remnant of the General Denikin's forces in the Crimea. It was stated peace negotiations will be opened immediately between the representatives of General Wrangel's army in the south and the Bolsheviks.

Strong Measures To Suppress Crime In Ireland

London.—Important changes in the criminal policy in Ireland were decided upon as a result of the conference between Viscount French, Major General MacCreedy, and the government officials in London. According to the London Times, the government was so impressed with the gravity of the situation that it resolved to use every kind of weapon in the armory of the state to crush the terror before it is too late.

"On the other hand," continues the Times, "the restrictions which irritate the whole community will be removed and a more tolerant regime of the Realm Act."

New York.—Pursuant to their

pledge to the federal reserve board, banking interests of this city have extended their campaign of deflation of credits and high commodity prices. In the financial district this policy has already been effective in reducing the speculative values to the extent of hundreds of millions of dollars in the last fortnight. In one instance, that of a prominent trust company, it is said that credits of this character had been reduced by \$100,000,000 in the last three weeks.

Banks in the whole state have been proceeding along the same lines, and the pressure exerted by these institutions is said to be directly responsible for the wave of cutting in many lines of retail trade, especially by the large departmental stores.

The president of a bank in the wholesale shoe district is authority for the statement that loans to dealers in leather and rubber goods are smaller than at any time in the last 18 months.

The price-slashing movement appeared to have struck the west now. Paper's carry advertisements reading "Reductions of \$20 to \$70 in women's high class cases, capes and wraps and coats." "Fifty per cent off our entire stock of children's and women's hats." "Any suit, coat or dress at half price." "At less cost—remaining stock of spring dresses," appeared in one paper.

St. Paul, Minn.—Marked price reductions were announced by several of the leading department stores. A wholesale millinery concern, the largest in the northwest, announcing it would open its doors to the trade and dispose of its \$1,200,000 stock at prices 50 per cent or more below prevailing retail figures.

French Troops Leave Frankfurt

No Incidents or Disturbances Were Noticed During Withdrawal

Colonia.—Reports received from Mayence state that all French troops which have been in Frankfurt and other centers, in the Rhine district, had returned to the Mayence bridgehead. Five hours were required for the French and Belgian units east of the Rhine to withdraw without incidents or disturbances were noticed during the day. Mayors of the smaller towns evinced expressed approval and welcoming of the French upon withdrawing.

Toronto Papers Support Colonization

Toronto.—Declaring that it is a body that should be of national importance and that its efforts are public spirited, the Daily Mail and Empire here publishes a lengthy editorial supporting the Western Colonization Association. The Toronto Globe, also commenting editorially, gives splendid support.

Devonshire House Sold

London.—The Duke of Devonshire's house in Piccadilly, one of the oldest and most famous in London, has been sold for one million guineas according to a statement just issued.

New Insurance Company

Ottawa.—An act to incorporate the United Canada Fire Insurance company, of Winnipeg, a new company with capitalization of \$3,000,000 passed by the committee on banking and commerce.

Huge Losses In the War Shown by France

Paris.—What is perhaps the first comprehensive statement of France's war losses has just been made by Capt. Andre Tardieu, minister of war, who he calls "The Balance Sheet" of France, Capt. Tardieu states that during the five years of war eight million men were mobilized, of whom 1,400,000 were killed. France thus lost 57 percent of her men under 32 years of age.

"Concerning material losses, Captain Tardieu states that six hundred thousand soldiers were disabled, 7,500,000 acres of arable land were waste, 3,000 miles of railway and 25,000 miles of highways destroyed. Mines which produced 35 percent of the coal output were damaged or destroyed, 11,500 factories, which before the war produced 95 percent of the woollen goods, 90 percent of the linen materials, 70 percent of the sugar and 60 percent of the cotton goods were crippled.

One-third of France's ships were sunk by German submarines. France had to raise more than eight billions of francs, of which some she was forced to lend 1,300,000,000 to foreign countries.

Poincare Resigns

Paris.—Raymond Poincare has resigned his membership in the reparations commission.

Many Try to Join

The Farmers' Party

W. R. Wood Declares Party Will Stick Absolutely to Action Taken at Brandon

Winnipeg.—"We are sticking absolutely to the action taken at Brandon," was the pronouncement of W. R. Wood, M.L.A., secretary of the United Farmers of Manitoba, when making a statement regarding the selection of the organization of candidates for constituencies in the coming provincial election.

"The truth is," said Wood, "that various parts of this province are today being over-run by political adventurers who have made up to the farmers by making a statement regarding the selection of the organization of candidates for constituencies in the coming provincial election. The truth is," said Wood, "that various parts of this province are today being over-run by political adventurers who have made up to the farmers by making a statement regarding the selection of the organization of candidates for constituencies in the coming provincial election. Burdett Hotel
Burdett, Alta

Last Friday the Girls Guides of
Burdett did themselves proud, when
they held a most successful entertain-
ment and Dance in the Majestic
Theatre and Supper was served in Mr.
T. H. Blaine's Store. Mr. Blaine is
tendered the most hearty and personal
thanks of the residents of Burdett
for his kindness in loaning his store
on this occasion which greatly helped
to make such a huge success of it.
The proceeds being \$114.00 which was
made a fund to provide uniforms etc.
for the Girl Guides. In the afternoon
they entertained their friends from
Bow Island to an exhibition game of
Basket Ball-The local players were
much too big for the visitors - The
score is an indication of the game as
for clean-cut sporting event we have
rarely seen a better one than this.
Rivalry of course was keen but the
excellent spirit of both sides is much
to be commended, later in the season
when the Bow Island girls have
grown a bit we have no doubt but
what they will make a better showing
in the meantime we wish to congrat-
ulate them on being such good spirited
losers

In the evening one of the most en-
joyable Dances ever put on in Burdett
took place, visitors from the neighbor-
ing towns were present in large num-
bers and with the well known Green
Line Orchestra which was the Warrey
band, everything went with a swing.
The ladies of Burdett surpassed them-
selves with the supper that was serv-
ed in Blaine's store
